

SANTOSH KUMAR

UI & Front-End Developer, UI architect, Angular and React JS, Java, Python Developer

Mobile: +91 9833218135 / 8879457995

Wipro Limited, Emp ID: 20119463, E-mail: santosh.kumar118@wipro.com

Flat No. A 806, G No 182/83/84, Mulik Luxuria Society, Baif Road, Near Moze College Wagholi, Pune, Maharashtra - 412207

SYNOPSIS

- ⇒ An astute Multi-Media professional with around **17 years+** of rich experience in the areas of web designing and web development using **Photoshop, Dreamweaver, Html, CSS, SCSS, jQuery / JavaScript / Angular** with expertise in **UI development** and **Front-end Architecture, Angular, and React JS, Spring Boot, Python, MEAN and MERN Developer, Webpack 5 Module Federation with React/Typescript**.
- ⇒ Currently associated with **Wipro Limited** as an Associate **Technical Lead using UI & Front-End Technologies, Angular, and React JS Developer**. I have successfully delivered complex enterprise applications across **RECS-UI, Backend API, UBS, CEDA, and dRisk projects**. My expertise spans **Angular, React, TypeScript, Python (FastAPI/Flask), Spring Boot, REST APIs, PostgreSQL, Docker, Kubernetes (AKS), Helm, GitLab CI/CD, Grafana, and Azure Cloud**. I have consistently focused on building scalable, secure, and high-performance applications while improving development efficiency through automation and modern engineering practices.
- ⇒ I am passionate about creating intuitive user experiences, architecting reusable front-end solutions, developing resilient backend services, and implementing cloud-native deployment strategies. My recent certification in Full Stack Generative & Agentic AI with Python has further strengthened my ability to integrate AI-driven capabilities into enterprise applications and automate business workflows.
- ⇒ Beyond technical expertise, I enjoy mentoring teams, leading architecture discussions, collaborating with cross-functional stakeholders, and driving continuous improvement through innovation and knowledge sharing. I believe in delivering solutions that provide measurable business value while maintaining high standards of quality, performance, and maintainability.
- ⇒ I would welcome the opportunity to contribute my technical leadership, problem-solving skills, and passion for innovation to your organization. Thank you for considering my application. I look forward to discussing how my experience and skills align with your team's goals.

TECHNOLOGY TOOLKIT

Frontend:	• Angular • React • Typescript • JavaScript • HTML5 • CSS3 • SCSS • Bootstrap • JSON
UI Components:	• Bootstrap • Material UI
Backend:	• Python • FastAPI • Flask • Java • Spring Boot • Node.js • Express • REST API
Cloud & DevOps:	• Azure • Docker • Kubernetes • AKS • Helm • GitLab • Azure DevOps • Terraform • Linux • Bash
Monitoring:	• Grafana • Prometheus • Loki • Open Telemetry • ELK • Application Insights
Database:	• PostgreSQL • MySQL • MongoDB • Redis
Tools:	• Git • Jenkins • Postman • Swagger • SonarQube • Jira • Confluence
Operating Systems:	• Windows XP • Linux
Design Tools:	• Photoshop
Today Trend:	• Include Generative AI skills

CERTIFICATION

- ⇒ **Generative AI** for Beginners
- ⇒ **Full Stack Generative AI** and **Agentic AI** with Python
- ⇒ **AZ-900:** Microsoft Azure Fundamentals Exam Prep - SEP 2024
- ⇒ Go **Java Full Stack** with **Spring Boot** and **Angular**
- ⇒ Modern **React** with **Redux**
- ⇒ **Full Stack** with **React** and **Spring Boot**

CAREER HIGHLIGHTS

Wipro Limited -- Sep 2019 – Till Date
Technical Lead as UI & Front-End Technologies, Angular, React JS Developer

KEY PROJECTS HANDLED

Client Name : **UBS-AG**
Project name : **RECS-UI** Enterprise Reconciliation Platform (CTC Menhir Modernization)
Duration : 12 Months
Role : **UI and Front-End Developer, JavaScript, React JS Developer, Python API Developer**

Key Responsibilities:

- Led the modernization of the legacy **Windows-based CTC Menhir Reconciliation application** into a scalable, **Migration Web-based enterprise platform using React JS with AG Grid.**
- Designed and implemented a **UBS NEMO React UI Boilerplate with Golden Path Deployment** for independent and Scalable application development.
- Developed reusable React components and enterprise UI frameworks to accelerate feature delivery and improve code quality.
- Architected and developed secure Python (FastAPI/Flask) microservices with PostgreSQL integration for Reconciliation workflows.
- Collaborated with Product Owners, Business Analysts, QA, and backend teams to deliver high-quality enterprise solutions.
- Implemented **GitLab CI/CD, Docker, Helm, and deployed applications on Azure Kubernetes Service (UK8s).**
- Integrated secure REST APIs, optimized application performance, and supported UAT, production deployments, and post-production releases.

Role Highlights:

- **Successfully migrated a legacy Windows desktop reconciliation system to a modern React.js web application**, improving scalability, maintainability, and user experience.
- **Built a cloud-native, enterprise-grade platform using React.js, FastAPI, Microservices, PostgreSQL, Docker, Kubernetes (AKS), and GitLab CI/CD.**
- Improved application performance through optimized rendering, asynchronous APIs, and efficient database design.
- Delivered multiple production releases with high code quality, minimal defects, and zero critical client escalations.
- Established reusable architecture patterns and development standards adopted across multiple enterprise modules.

Client Name : **CREDIT SUISSE, UBS-AG**
Project name : **dRisk** (Risk Management Platform)
Duration : 66 Months
Role : **UI and Front-End Developer, JavaScript, React JS Developer**

Key Responsibilities:

- **Led the migration of legacy JavaScript applications to React.js**, improving maintainability, scalability, and user experience.
- **Designed and developed responsive, Material UI, AG Grid, reusable UI components using React.js, JavaScript, HTML5, CSS3, SCSS, Webpack, and Single-SPA.**
- Collaborated with Product Owners, Developers, QA, Scrum Masters, and Clients to deliver high-quality features aligned with business requirements.
- Conducted impact analysis, effort estimation, code reviews, and resolved production issues while ensuring high code quality.
- Built Proof of Concepts (PoCs) and demonstrated solutions during customer playback sessions to validate functionality and design.
- Supported UAT, production deployments, release activities, and post-production application support.
- Prepared technical documentation, managed change requests, and drove continuous performance and usability improvements.
- Mentored team members, facilitated knowledge transfer sessions, and promoted engineering best practices.

Role Highlights:

- **Successfully modernized enterprise applications by migrating from JavaScript to React JS** with a component-based architecture.
- Delivered scalable, high-performance front-end solutions through close collaboration with cross-functional and distributed teams.
- Integrated front-end applications with backend services while ensuring seamless system integration and optimal user experience.
- Contributed to project planning, risk mitigation, stakeholder communication, and continuous technical innovation.

Client Name: HP,
Duration: 11 Months 2 Days
Role: **UI and Front-End, JavaScript and React JS Developer, Working with Drupal Application**
Web Portal: HP (<https://developers.hp.com/>)

Responsibility:

- Developed responsive, enterprise-grade front-end applications based on client requirements and UI/UX designs.
- Collaborated with Developers, QA Engineers, Scrum Masters, and Clients to deliver high-quality solutions in Agile environments.
- **Built modern web applications using React.js, JavaScript, HTML5, CSS3, Bootstrap, Node.js, NPM, and jQuery.**
- Developed reusable, cross-browser compatible UI components supporting Chrome, Firefox, Safari, Microsoft Edge, and legacy Internet Explorer (IE9+) where required.
- Optimized application performance, responsiveness, and user experience across desktop platforms.
- Participated in code reviews, defect resolution, UAT support, and production deployments to ensure reliable software delivery.

Magna Infotech Private Limited - Client [Wipro Limited] (C2H) -- Dec 2018 – Sep 2019

Sr. UI & Front-end Developer

KEY PROJECTS HANDLED

⇒ **Duration** : Dec 2018 – Sep 2019
⇒ **Role** : Sr. UI & Front-end developer
⇒ **Key Skill** : HTML, CSS, SCSS, JavaScript, jQuery
⇒ **Website** : <https://www.magna.in/>
⇒ **Synopsis**
➔ Drupal UI Development, CMS Content designers and developers for Portal with **responsive**.

Responsibility:

- Developed responsive, pixel-perfect front-end applications based on client requirements and UI/UX designs.
- Collaborated with Developers, QA Engineers, Scrum Masters, and Clients to ensure timely and high-quality project delivery.
- **Built interactive user interfaces using HTML5, CSS3, JavaScript, jQuery, and Bootstrap.**
- Developed cross-browser compatible applications supporting Internet Explorer (IE9+), Chrome, Firefox, and Safari.
- Ensured responsive layouts, full-width screen compatibility, and an optimized user experience across desktop platforms.
- Participated in code reviews, defect resolution, testing support, and production releases.

Project Details

Name: HP (<https://developers.hp.com/>)

Ambab Infotech Pvt. Ltd., Mumbai -- Jan 2013 – Sep 2018

Sr. UI & Front end developer

KEY PROJECTS HANDLED

⇒ **Role** : Sr. UI & Front end developer
⇒ **Website** : <http://www.corporate.ambab.com> <http://www.ambab.com>
⇒ **Key Skill** : HTML, CSS, SCSS, JavaScript, jQuery, NodeJs, Express, Angular, PHP

⇒ **Synopsis**

- ➔ Magento UI Development, CMS Content designers and developers for eCommerce Portal with **responsive**.

Mikrofax, Mumbai -- Feb 2012 – Dec 2012

UI & Front end developer (Mikrofax on Contract)

⇒ **Role** : UI & Front end developer

⇒ **Website** : <http://www.mikrofax.com>

⇒ **Key Skill** : HTML, CSS, SCSS, JavaScript, jQuery, Photoshop

⇒ **Synopsis**

- ➔ eProcurement Software Solutions are designers and developers of eProProcure.
- ➔ A fully hosted complete purchase-to-pay web based eProcurement workflow management and purchasing software system.

Vistaas Digital Media Pvt. Ltd., Mumbai -- April 2011 – Jan 2012

Web UI Developer

(Web UI Developer)IT department closed, lost my job (CompanyClosed Now)

KEY PROJECTS HANDLED

⇒ **Role** : Senior UI Developer - Web operations

⇒ **Key Skill** : HTML, CSS, SCSS, JavaScript, jQuery, Photoshop

⇒ **Synopsis**

- ➔ Digital Marketing is the practice of promoting products and services using digital distribution channels and online lives streaming to reach consumers in a timely, relevant, personal and cost-effective manner.
- ➔ Developed rich media website for internal company communication from start to end.
- ➔ Created brochure template for **Vistaas** internal media printing.

Biz Technologies Pvt. Ltd., Mumbai -- Jan 2009 – Nov 2010

Team Lead, Web Design & UI Developer

(Worked as Team Leader Designer and Developer)

KEY PROJECTS HANDLED

⇒ **Role** : Team Lead UI Developer

⇒ **Key Skill** : HTML, CSS, SCSS, JavaScript, jQuery, .Net, c#, Photoshop

⇒ **Synopsis**

- ➔ An Indian based IT Software development Company.
- ➔ Developed rich media website for internal company communication from start to end.
- ➔ Created brochure template for **Biz Technologies** internal media printing.

Nyasa Softec Pvt. Ltd., Mumbai -- Jan 2006 – Jan 2009

Web Designer & UI Developer

(Web Designer cum UI Developer)IT department closed

KEY PROJECTS HANDLED

⇒ **Role** : Senior Web Designer & UI Developer - Web Operations

⇒ **Key Skill** : HTML, CSS, SCSS, JavaScript, jQuery, Photoshop

⇒ **Synopsis**

- ➔ Online Domain, Web Designing and Development Company.
- ➔ Developed rich media website for internal company communication from start to end.
- ➔ Created brochure template, Newsletter for **Nyasa Softec Pvt. Ltd.** internal media printing.

I hereby declare that the information given above is true to the best of my knowledge and belief.
